Jean-François Campagnolle

MACHINE LEARNING & COMPUTER VISION ENGINEER

Machine Learning and Computer Vision Engineer at 42 Paris, after a career in finance and audit. Experienced in Python, C/C++, computer vision, API and cloud technologies, with projects from prototype through deployment.

PROFESSIONAL EXPERIENCE

Machine Learning & Computer Vision Engineer | 01/2026 - Present
Veolia - Scientific and Technological Expertise Department (DEST) • Paris, France
Developing computer vision solutions for truck tracking and waste inspection across industrial sites.

- Contributed to the development of a three-stage truck-tracking pipeline covering vehicle detection, multi-camera re-identification and unloaded-waste detection.
- Trained and evaluated ViT- and DINOv3-based models using triplet loss and hard and semi-hard negative mining.
- Developed a visual embedding retrieval system combining temporal filtering with Rank-1 evaluation; achieved third place at the 2026 Veolia Poster Trophy for presenting the project and its results.

Co-founder | 07/2023 - 09/2024
GAIDED • Station F Paris, France

- Co-designed a narrative engine generating personalised, location-based stories using the Wikipedia API and a GPT-based LLM..
- Deployed the complete cloud architecture on GCP, including virtual machines, API Gateway, databases and monitoring.
- Optimised caching and geolocation processes, reducing latency by 1.5 seconds; launched a beta version tested by more than 10,000 users.

Group Consolidation Analyst | 2021 - 2026
Veolia • Paris, France
Prepared IFRS consolidated financial statements for China and Hong Kong (over €1.5bn in revenue) and coordinated reporting from more than 200 subsidiaries.

Senior Auditeur | 2016 - 2021
KPMG France • Paris, France
Led audits of major corporate clients, covering risk assessment, engagement planning and execution.

Corporate FP&A Analyst | 01/2015 - 08/2016
Custom Sensors & Technologies (CST) • Los Angeles, USA

EDUCATION

IT Architecture Expert — RNCP Level 7 (Master's level) | 2021 - Present
École 42 • Paris
Core curriculum completed — Level 17; Specialisation in Artificial Intelligence& Algorithms

- Project-based, peer-learning curriculum : C, C++, python, web, Unix, networking, algorithms, security.
- Portfolio : 42cv.dev/jcampagn

Advanced Master's in Audit Management | 2018 - 2021
ESSEC Business School • Paris, France

Advanced Diploma in Accounting and Management (DSCG) | 2017

Master's in Audit, Management Control, Governance & Risk Management | 2011 - 2015
Toulouse Business School • Toulouse, France

Benevello, CN, Italia
Category B driving licence

TECHNICAL SKILLS

Strong Proficiency

- **Languages :** C, C++, Python, Bash.
- **Programming Concepts :** Object-oriented programming, Linux system administration, Unix environments.
- **Tools & Platforms :** Git, GitHub, CI/CD, SSH, Docker, Linux, GCP
- **Backend :** Node.js, Express, REST API, FastAPI, caching
- **Algorithms :** Ranked among the top 2% of CodinGame users in AI and algorithmic challenges.
- **Cybersecurity :** Unix/Linux security, CTF challenges, vulnerability analysis.

Working Knowledge

- **Languages :** TypeScript, SQL
- **Frontend :** React, HTML, CSS

SOFT SKILLS

- Analytical rigour and systematic error diagnosis
- Technical curiosity and continuous learning in AI
- Ability to explain complex topics clearly to non-technical stakeholders

LANGUES

French : Native

English : C2 - lived and worked in the United States for two years

Italian : B2

INTERESTS

Squash : 5th Series level ;Running : two half-marathons
